INFORMATIONAL BULLETIN IB-10009

TO: All EMT-Basic and Optional Providers
FROM: Sergeant JD Orndorff
RE: EMT- Enhanced Class
DATE: October 19, 2010

It is my understanding that Lord Fairfax Community College may not be offering the EMT-Enhanced course during the Spring 2011 semester for various reasons. However, there may be another option. If there is enough interest within the Winchester Fire and Rescue Department for an internal EMT-Enhanced course, our department will consider hosting the class once again.

If you are interested in both professional and personal growth then becoming an EMT-Enhanced provider is an excellent choice. You will be gaining additional knowledge and new practical skills that can make a tremendous difference in patient outcome.

So, are you interested in taking the challenge of expanding your EMS knowledge and skills? If so, notify Captain McClellan at emcclellan@ci.winchester.va.us or 540-662-2298 by November 1, 2010.

If you are currently certified at or above the EMT-Enhanced level and are interested in assisting with instructing this course, notify me at jorndorff@ci.winchester.va.us or contact me at 540-665-0007.

We are anticipating the class will begin in January 2011, and end in May 2011, prior to summer vacations.
