RE: Senseny Road Bridge Project  
DATE: February 22, 2012

## **INFORMATIONAL BULLETIN IB-12006**

Effective February, 28, 2012, one lane of the Senseny Road bridge crossing I-81 will be closed to traffic. There will be traffic lights in place on both sides of the bridge to control the single lane crossing. It is estimated that the repair work will take six (6) months to complete.

Chief Keeler, of Greenwood Fire Company has requested that Winchester Fire and Rescue be placed on a dual assignment response to all incidents within the Wilkins Drive area (Green Acres) from 0600 hours – 0900 hours (weekdays). This is due to the fact that Greenwood's response times to this area may be impeded with the increased in-bound traffic to the City. This will also include all County addresses off of Woodstock Lane.

Units that are dispatched to this designated area and any other area within Greenwood's first due, should consider alternate routes of access. Good judgment will be the best policy during this repair work.
