RE: Workrite Uniform Problem

DATE: April 26, 2012

INFORMATIONAL BULLETIN IB-12014

The Department needs all personnel to inspect their Workrite uniform shirts for deformed/shrunk City of Winchester arm patches. If you encounter any of these, please use the Cintas repair tags and identify the problem on the tag and place them in the garment pick-up bin.

Please be mindful of your schedule and limit your submission if you will run short on uniforms.
