TO: All Fire and Rescue Personnel
FROM: Scott Kensinger, Deputy Chief
RE: In-Service Units at Rouss
DATE: February 7, 2013

INFORMATIONAL BULLETIN IB - 13004

The department will no longer require the staff at station 2 to maintain two in-service aerial devices at one time unless there are sufficient personnel as per "SOP 7.2 Staffing and Response Criteria".

When placing units in-service with ECC in the AM, personnel should only place Truck 2 or Ladder 2 in-service (based on station policy). It will be the station personnel's responsibility to respond on Ladder 2 for commercial related fire incidents and place Truck 2 out of service.
