RE: Shenandoah University Water Supply Shutdown

DATE: July 19, 2013

INFORMATIONAL BULLETIN IB-13035

On July 23, 2013 at 1700 hours the city Utilities Department will be shutting down the water supply to the Shenandoah University Library and Dining Hall for water line work for a short time. During this time the fire hydrants in front of the library and adjacent to the dining hall will be bagged and out-of-service. The university will be providing fire watch of the affected structures while the work is being completed.

If there are any questions regarding this project you may contact me directly or Dennis Makely of the Utilities Department at 540-667-2284.
