RE: ER Proxy Cards
DATE: September 21, 2013

INFORMATIONAL BULLETIN IB-13057

New ER proxy cards have been acquired from the medical center. I was able to obtain 10 cards in total. The cards have all been marked with permanent marker to identify which units they belong on. Each pumper or truck will have one card, and the medic units will have two cards so that each provider will have access to the ER. Please ensure these cards are accounted for each morning with your equipment checks. If you lose or damage a card, send DC McClellan or I an email so we can get a replacement card for the unit.

Thanks,

BC Henschel
