FROM: Scott Kensinger, Deputy Chief
RE: Technology Steering Committee
DATE: January 30, 2014

INFORMATIONAL BULLETIN IB-14007

We are soliciting both career and volunteer personnel to become part of a technology steering committee sponsored by the department. This committee will explore current and future technologies as they apply to public safety that make our jobs more safe and productive. You do not have to be tech savvy to be a part of this group but have the ability to provide a vision for future developments utilizing technology in our service.

If this is something that you feel you can contribute your knowledge and expertise in, please respond to me via email at scott.kensinger@winchesterva.gov no later than Friday, February 7, 2014.

It is the intent to have this group meet monthly at a minimum and may require additional time to research issues that may be brought up by the committee.
