

STANDARD OPERATING GUIDELINES

SUBJECT **Fuel/Energy Conservation Update**

REFERENCE NUMBER SOG-06-08

EFFECTIVE DATE January 1, 2006

Signature of Approval

Frank E. Wright, Fire & Rescue Chief

TO: All Fire & Rescue Department Personnel

FROM: Scott Kensinger, Lieutenant

In reference to Memo# O-05-13 "Fuel/Energy Conservation", the Department must address cold weather and the idling of apparatus during non-emergency activities. All medic units that will be in the elements and in a non-emergency mode should remain on with the heat tempered to keep drug boxes and other fluids at their proper state. All other apparatus personnel should be cognizant of freezing on board water and shall take this into account during these times. Please use good judgment and take care of our apparatus and equipment.

Please direct any questions to the office.
